

PRESS RELEASE

Statement regarding missing Mount Isa residents

Mount Isa, 17 July 2012

Xstrata Mount Isa Mines is working with the Queensland Police Service to assist in their investigations in relation to the two missing Mount Isa residents, who are both Xstrata employees.

We have arranged for counseling to be made available for any of our people who are friends or colleagues of Cindy Masonwells and Scott Maitland and would benefit from support during this difficult and uncertain time.

The news that someone has been charged with their murder is clearly distressing and our thoughts are with their family and friends.

About Xstrata plc

We are a major producer of a range of vital commodities used in everything from constructing buildings and delivering electricity, to developing jet engines and mobile phones. We are one of the top five global producers of copper, thermal and metallurgical coal, ferrochrome, zinc and nickel and we also produce silver, lead, platinum, gold, cobalt and vanadium.

Founded in 2002 and headquartered in Switzerland, we operate in over 20 countries and employ over 70,000 people at more than 100 operations and projects around the world. We work in a responsible and sustainable way, with an entrepreneurial spirit and dynamic approach. For more information, visit www.xstrata.com

About Xstrata Copper

We are the fourth largest global copper producer and one of the world's largest producers of smelter, refined and recycled copper, including from third party materials.

The copper we produce is essential to our modern society, being used extensively in electronic, consumer and building products, and with its use in green-technologies, anti-microbial applications and ability to be recycled, it is playing a vital role in our sustainable future.

Headquartered in Brisbane, Australia, we have operations and projects in eight countries and employ over 20,000 people. We play an essential role in the communities in which we live and work, by providing jobs, training, infrastructure, income for suppliers and support for social development. About Xstrata Zinc

Headquartered in Madrid, Spain, Xstrata Zinc is one of the world's largest producers of zinc and one of the commodity business units within the major global diversified mining group Xstrata plc. Xstrata's zinc and lead operations and exploration projects are located in Australia, Canada, Germany, Peru, Spain and the United Kingdom.

Xstrata Zinc's operations in Spain comprise the San Juan de Nieva zinc smelter and the Arnao zinc semis plant in Asturias, and the Hinojedo roasting plant in Cantabria.

In Australia, operations comprise: the Mount Isa, George Fisher underground, Handlebar Hill open cut and Black Star open cut zinc-lead mines, zinc-lead concentrator, lead smelter and Bowen Coke Works in north Queensland; the McArthur River open pit zinc-lead mine, processing and loading facility in the Northern Territory; and the Lady Loretta mine in north-west Queensland.

In Canada, operations and exploration projects include the Brunswick zinc-lead mine and lead smelter in New Brunswick; 25% of the CEZ zinc smelter near Montreal; and the Perseverance zinc deposit in Quebec.

Xstrata Zinc also operates the Nordenham zinc smelter in northern Germany; the Northfleet lead refinery in the United Kingdom; and owns 33.75% of the Antamina mine in Peru.

Around half of all zinc currently consumed is used for galvanizing steel, which is an environmentally friendly method of protecting steel against corrosion. Zinc also finds application in the manufacture of die-cast alloys, brass and the production of zinc oxides and chemicals.
